# Punch Drunk

By Alexandria Abramian-Mott

Bright pink, electric yellow and vibrant orange are making waves as the hottest hues this spring. Call it a triple serving of punch: All offer fresh bursts of fully saturated color that pump up everything from the patio to the living room. Start small with Esque Studio's hand-blown barometer or go grand with Madeline Weinrib's latest, the Brooke carpet, a preppy/cool pairing of fuchsia and tangerine. And if you're looking to go totally glam, Alexandra Angle's Arc chair in canary and bright pink is definitely the hot seat of the season. ■
